Insider here. Nobody wants to admit it. But I'll say it. We are experiencing a wide scale population die-off. Since 2020, we've been having a steady die-off of the people. All the weird stuff that we've all been noticing in our society is happening because of the die-off.
Quality of standards ans services getting shitty, since 2020. Airplanes dropping out of the sky. Not as many people out and spending money on recreation, since 2020. All of it and more is due to the die-off.

-

Q: Is it the failed covid vaccine? What is truly?

| | |
|---|---|
| | A: Hard to know. Its likely a combination of all that we have been going through.<br>The traumas due to how the covid-19 pandemic was instituted and managed have done immeasurable physical, psychological, and social damage to us all. Covid-19, whatever it really may have been, is the crux of why the die-off is happening. That much is sure.<br><br>-<br><br>Q: censored<br><br>A: You are blind with denial. Most are. This denial is a luxury that won't last. Enjoy it while you can.<br><br>[link to archive.4plebs.org (secure)] |

But what can |

they do? They cant deliver weapons or S-400/500 becaus ethey need all of them for their own territory.
The most logical thing is to keep Turkey under its nuclear umbrella.

China cares even less for Turkey but there is a huge caviat. They want to weaken NATO and especially the US. A full sclae war with a totally mobilized Turkey will be a war that hasnt been see since WW2. It will heavily drain NATO and US ressources.
And China has the capability to arm Turkey consitently and quickly. How many turks will die because of this is of no cocnern for China. But it will not only weaken NATO but pretty much destroy it.

Now why all of this? Israel!
Its all about Israel. Israel has defeated the entire middle-east and has pretty much complete hegemony. With the exception of Turkey. Turkey has become so powerful, that Israel knows it can defeat it directly like teh arabs and Iran. All that stands before the "Greater Israel" dream is Turkey.
And Israel will force the US and the others to accomplish its dream. And since they rule the US, UK, France and Greece, it will happen.
Of course they will use all the antipathy of countries like Greece to use that against Turkey, but in the end its all about "Greater Israel".

Update- I got some more details but not much.
I’m not here to tell you to uproot your life unless you’ve already been considering it. I don’t have exact dates, and I’m not going to pretend I do. What I can say is the chatter is about both coasts , not just one and the fact they’re not specifying a timeline tells me it’s the kind of thing they want people to be quietly ready for at any time.

My advice? Prepare as best you can without disrupting your life. That means having a plan, stocking essentials, and knowing where you’d go if you had to leave quickly. I’m not telling anyone to run , I’m telling you to be ready to walk out the door if the moment comes.
